# A LEADING INNOVATOR IN THE GLASS INSTALLATION INDUSTRY

Only lifts in the market that can reach 1st floor

Highest level of safety with integrated systems

**15**

YEARS OF INDUSTRY EXPERIENCE

# Smart Group ApS

A leading innovator in the glass installation industry is dedicated to enhancing the everyday work of glaziers worldwide. Since its inception in 2018, the company has been committed to revolutionizing the industry by offering a safer and more productive lift solution to address the growing demand for modern and trustworthy glass installation technology.

At the heart of this commitment is the SG Lift, a state-of-the-art lift that is built on the newest and most advanced hydraulics technology available. The lift has been engineered to optimize the installation process and minimize the heavy lifting involved in glass installation projects. Moreover, the lift is specifically designed to handle heavy, energy-optimized, multi-layered glass, making it the perfect solution for a wide range of glass installation projects.

**Choose SG Lift and elevate your glass installation projects to new heights.**

# Applications

SG Lifts, has a wide range of applications in various industries. The lifts are specifically designed to cater to the needs of the glass industry, window construction, and assembly construction. The lifts are a great solution for indoor and outdoor glass installation, making it possible to work on buildings of all heights. They can lift heavy and delicate materials with ease and precision, making them ideal for large-scale projects that require the handling of large glass panels.

Our mission is to deliver **the highest quality and most reliable glass installation solutions** to our customers worldwide. We are committed to manufacturing our products in Denmark with an **uncompromising focus on quality, safety, and innovation.**

## SG 350 Glass Lifter

Our smallest glass robot yet, with a working height of 3.8 meters and a load capacity of up to 350 kg, this mobile and electric lifter are perfect for a range of indoor and outdoor applications in the glass industry, window construction, and assembly construction.

## SG 450 Glass Lifter

Whether you need to lift heavy glass panels or install windows at height, the SG450 is a highly versatile and reliable lifting solution that is compact and extremely solid. It offers a working height of up to 5.8m and a lifting capacity of up to 450 kg.

## SG 650 Glass Lifter

With a working height of up to 5.8 m and a lifting capacity of up to 650 kg, it offers high performance and is suitable for indoor and outdoor use. Its compact design makes it highly manoeuvrable, while the use of the latest technology ensures reliable and safe operation.

## SG 1200 Glass Lifter

Most powerful indoor & outdoor lifting solutions for the glass industry, window construction, assembly construction, and more. With a lifting capacity of up to 1200 kg and a working height of up to 5.8 meters, the SG1200 is a compact and extremely solid solution for heavy-duty lifting needs.

## Benefits of SG Lifts

- Max Lifting height of 5.8 mtr.
- Extension in front of the wheels 2.1 – 4.5 mtr.
- Potentiometer for regulating working speed.
- Wireless remote for all machines ( Sold separately)
- Power assist steering on the SG1200
- Continuously gauge the load, decelerate when nearing the maximum, and visually indicate when operating near maximum capacity
- Powerful electric drivetrains
- Low maintenance & very service friendly
- All machines made for coarse terrain
- Highest security in the market
- Our lifts are the only ones in the market that can effortlessly ascend to the first floor.
